Xtreme CalendarPro: With Xtreme CalendarPro you can create and modify appointments. You can create your own appointment grid. You can store your appointment details in a database (optional), which makes searching and reporting a breeze. Xtreme CommandBars: Xtreme CommandBars is a useful, minimally invasive toolkit that lets you collect all your frequently used commands into one convenient location without interfering with the layout of your programs. By minimizing the amount of 'real estate' taken up by the toolbar, you are able to maximize the amount of viewable space for your programs. Xtreme Controls: With Xtreme Controls you can create and apply Windows style controls to any window in a program. Both Xtreme Controls and Xtreme CommandBars may be placed anywhere in a program and applied as long as the size of the window is suitable. It's as easy as dragging and dropping. Xtreme DockingPane: With Xtreme DockingPane you can add a docking pane that gives your program a fresh, polished look. You can arrange all your programs and windows to your liking in a standard layout, and choose between two different docking panes. Xtreme PropertyGrid: Xtreme PropertyGrid is a program to create property grids. Property grids are an essential design element for any application. Each tab of the grid is a property sheet. You can display properties for a window or an entire program. Xtreme ReportControl: Xtreme ReportControl is a report designer for any program. It includes a powerful report designer, data source and export wizards, event handlers and a powerful query builder to help you create dynamic reports. Xtreme ShortcutBar: Xtreme ShortcutBar is a shortcut bar. A shortcut bar is an invaluable design element. You can group as many of your favorite menu items as you like. Xtreme SkinFramework: Xtreme SkinFramework is a skin framework for any program. A skin is a program element that adds a themed look to a window. With Xtreme SkinFramework you can create skins and apply them to any program. A Xtreme Skin is the most efficient way to skin any program. Xtreme SyntaxEdit: Xtreme SyntaxEdit provides an

Xtreme TaskPanel with quick access to most used tools. The modern UI perfectly fits on any Windows system and also reduces the stress and time to create a successful application. With Xtreme ToolkitPro, you can save your time while you creating software applications. Xtreme ToolkitPro Features: Xtreme TaskPanel is based on the Xtreme TaskPanel open source component. Xtreme TaskPanel offers you more to complete a task: Ability to assign tasks to file and folder Create folders, files, move and rename them Open files, batch processes Ability to assign tasks to process and thread Start programs, batch processes Continue previous process Xtreme ToolkitPro: ShortcutBar is a main selling point! Xtreme ToolkitPro ShortcutBar component has the following main features: Ability to drag and drop shortcuts to make your software applications faster! Shortcuts can be accessed directly from TaskPanel or from any application Set shortcut options like icon, tooltip, icon text, image and more. There are lots of options to customize the appearance of shortcuts! Xtreme CommandBars component has a lot of great features: CommandBars: Ability to drag and drop menus, labels, buttons and toolbars and create a new application as a result! CommandBars: Highlight menu items Xtreme CommandBars Properties: Set options like visibility, placement, ordering and more Xtreme CommandBars: Error list Xtreme CommandBars: HTML menu and toolbar Xtreme Control component offers you a lot of great features: Controls: Ability to add a text label or icon to control and adjust it like a user would Controls: Highlight the currently selected item! Xtreme Control Properties: Set options like visibility and background color Xtreme Control: Error list Xtreme Control: HTML control and toolbar Xtreme Control: Tabbed panels Xtreme Control: Toolbar Xtreme Control: Window browser Xtreme Control: XML forms Xtreme Controls component has a lot of great features: Xtreme ControlBars: Ability to drag and drop a control to create a new window! There are a lot of options to customize how your control appears! Xtreme ControlB b7e8fdf5c8

✓ Components for any Microsoft Windows developer using the .NET framework. ✓ Use tools that natively integrate into the IDE. ✓ Collection of ready-to-use components for any application development. ✓ Using the Tabbed User Interface (TUI) and IntelliSense. ✓ Numerous Out-of-the-box skinned controls and views for smooth windows visual. ✓ Support for in-house and 3rd party component controls. ✓ User friendly, consistent and easy to use. Xtreme ToolkitPro Features: ✓ Collection of ready-to-use components for any application development. ✓ Use tools that natively integrate into the IDE. ✓ Collection of Windows Forms components, as well as WPF and Windows Phone components. ✓ Using the Tabbed User Interface (TUI) and IntelliSense. ✓ Out of the box skinned controls and views for smooth windows visual. ✓ Support for in-house and 3rd party component controls. ✓ User friendly, consistent and easy to use. \* Project may include logos, product images or trademarks. Xtreme ToolkitPro Support: Please contact us if you need professional support. More great apps and plugins are available at Xtreme ToolkitPro is a visual application kit for programmers. It includes many features that will help you to build applications quickly. All features come with many skins There are no registration requirements All components have intellisense and code completion support All components are ready-to-use and easy to create your own skins. If you want to see other skins from Xtreme ToolkitPro, you can find them in the main application. This is a component of Xtreme ToolkitPro Xtreme ToolkitPro is a visual application kit for programmers Xtreme ToolkitPro is not just a visual component developer, it also provide many features to help you build your own application. The package include many ready-to-use components like: ✓ Components for any Microsoft Windows developer using the .NET framework. ✓ Use tools that natively integrate into the IDE. ✓ Collection of ready-to-use components for any application development. ✓ Using the Tabbed User Interface (TUI) and IntelliSense. 

#### What's New In Xtreme ToolkitPro?

Leading the way in interface builder development, XtremeUI Designer is a tool that simply makes it easier for interface designers and programmers to create applications. Take command of visual designer IDE and design efficient and easy to develop GUI interface for windows, dialogs, bars, menus, images and a lot more.
